Gandhinagar, Gujarat, India

Education

Pandit Deendayal Energy University

B.Tech in Computer Engineering

2023–2027

CGPA: 8.78/10

- Relevant Coursework: Machine Learning, Data Structures, Algorithms, DBMS, Operating Systems, Probability & Statistics

Experience

MULTITECH SUPPORT & DEVELOPMENT

Machine Learning Intern

May 2026 – Jul 2026

- Worked on machine learning solutions using Python for real-world datasets.
- Performed preprocessing, feature engineering, exploratory data analysis and model evaluation.
- Prepared technical documentation and collaborated with mentors on AI projects.

Projects

Anti-Money Laundering Detection using Machine Learning

2026

- Developed an AML detection pipeline using the SAML-D dataset.
- Implemented preprocessing, feature engineering and XGBoost with 5-fold cross validation.
- Evaluated using Precision, Recall, F1-score, ROC-AUC and PR-AUC.

Flood Prediction using Spatio-Temporal Graph Neural Networks

2026

- Built graph representations from meteorological and hydrological stations.
- Implemented PyTorch-based spatio-temporal forecasting models.
- Performed missing-value handling and temporal preprocessing.

Smart Traffic Management using PySpark

2025

- Processed large-scale traffic datasets using Apache Spark and PySpark.
- Designed scalable ETL pipelines and analyzed congestion patterns.

House Price Prediction using Neural Networks

2025

- Built TensorFlow regression models with preprocessing and hyperparameter tuning.

Skills

Languages: Python, Java, C++, SQL

Machine Learning: PyTorch, TensorFlow, Scikit-learn, XGBoost, Pandas, NumPy

Data Engineering: PySpark, Feature Engineering, Data Preprocessing, EDA

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook

Concepts: Classification, Regression, Cross Validation, Neural Networks, Model Evaluation

Certification

NPTEL Elite Certificate

Advanced R Programming for Data Analytics in Business

2025

IIT Kanpur
